Webinar on "SancharSaathi Portal"

SancharSaathi Portal is a citizen centric initiative of Department of Telecommunications to empower mobile subscribers, strengthen their security and increase awareness about citizen centric initiatives of the government. SancharSaathi empowers citizens by allowing them to know the mobile connections issued in their name, get disconnected the connections not required by them, block/ trace lost mobile phones and check genuineness of devices while buying a new/old mobile phone. SancharSaathi Portal will also act as a platform for sharing different citizen centric services offered by Govt of India and to create awareness on cyber and information security.
